

## **Full Goat Script Setup Guide**

First Off I'd Like To **Thank You** For **Purchasing** Our **Goat Script!**

There's A Lot In This Guide So I Recommend Slowly Reading It!

### **Mod Menu Setup:**

For PlayStation Layout

**Open Mod Menu** By Pressing **L2 + Options**

For Xbox Layout

**LT + Options**

( **Press At The Same Time** )

**Open Kill Mode L2 / LT + Menu**

(**Always Keep It OFF When ON It Deactivates The Script**)

**X / A To Edit Value**

**Look Input Curves:**

If You Are **Linear** Select **Linear Type**

If You Are **Exponential** Select **Polar Type**

**Navigate Mod Menu** By Using **D-Pad Arrows**

**Double Click Circle / B To Save Adjustments**

### **Quick Toggle ON & OFF Mods**

Auto Aim = D-Pad Down + X / B

Rapid Fire = Hold L2 / LT + D-Pad Right

Pickup Macro = D-Pad Up + X / D-Pad Up + A

These Can Be Extremely Useful Especially For Competitive Players!

### **Now That You Understand The Mod Menu Controls Here's What's Recommended:**

If You Are Playing The **Normal Game Mode** With **New Guns** Turn **Auto Tracking OFF**

If You Are Playing The **Reload Game Mode** With **OG Guns** Turn **Auto Tracking ON**

**Exponential Is The Superior Look Input Curve For All Scripts Keep That In Mind**

**AFK Auto Tracking / Auto Aim Is ONLY Good With Hitscan Weapons! NOT PROJECTILE!**

### **Frequently Asked Questions:**

#### **Why Is My Leg Shaking?**

That Is The AFK Auto Tracking Toggled On!

#### **Why's My Zen Eye Flashing?**

That Is The Indicator Showing That Rapid Fire Is Working!

### **Here Is What All The MOD MENU Features ACTUALLY MEAN:**

**(mod 1) Anti-Recoil Is The Crosshair Staying At It's Fixed Position When Firing Any Weapon**

**(mod 2) AA Type Also Known As Aim Assist Type Is Pairing Your In-Game Look Input Curve Sensitivity To You're Mod Menu AA Type, For Cronus Zen Scripts Expo Is Always Stronger!**

**(mod 3) Sticky Aim Makes You're Crosshair Stick Onto An Opponent Making It Really Easy To Hit Flick Shots As You're Crosshair Slows Down Drastically**

**(mod 4) Polar Aim Is A New Aim Assist Type Giving Stronger Aim Assist While Keeping The Screen Shake The Same**

**(mod 5) Build Mod, If You Are Playing Builds Turn Build Mod ON, If You Are Playing Zero Build Turn Build Mod OFF**

**(mod 6) Insta Reset Is A Macro That Allows You Too Reset Builds All While Holding 1 Button**

**(mod 7) Insta Pick Axe Is An OG Mod Used For Zen Scripts But Not Useful Anymore Since Everyone Uses Builder Pro Nowadays But It's For Pulling Out The Pickaxe When In Build Mode**

**(mod 8) Pick Up Mod Is A Macro Allowing You To Pick-up Weapons 10x Faster Than The Average Human On A Controller, It's Even Faster Than Scroll Wheel Pick-up!**

**(mod 9) Head Shot Pulls You're Crosshair Higher While Shooting So With This Mod On Try To Aim For The Body & You'll End Up Hitting Headshots So Much Easier!**

**(mod 10) Rapid Fire Allows You To Hold Down You're Fire Button On Semi-Automatic Guns Allowing You To Shoot Extremely Fast When Using A Semi-Automatic Pistol For Example**

**(mod 11) VM Speed Which Stands For Virtual Machine Lowers The Input Delay On You're Controller Overclocking It, This Is Very Useful For Console Players**

**That's The End Of The Goat Script Guide Make Sure To Drop A #Review If You Haven't Already & I Hope To See Your Clips Dominating InGame!**
